Facts About

Franklin

Franklin is an industrial city at the head of the Merrimack river, which is formed by union of the Winnepesaukee and the Pemigewasset.

Industries: Retail center, woolens, hosiery, knitting machine parts and needles, saws, castings, women's garments, handicrafts, lumber, manufactured mill work, dairy produce, poultry, apples, wholesale distributing center.

Incorporated as town: 1828

Incorporated as city: 1895

Population, 1940 census, 6,749

Tax rate, 1949, \$4.55

Property valuation: \$9,236,953

City streets and roads, 135 miles.

Paved streets. approximately 40 miles.

Altitude: 334 feet at Franklin Post Office; 700 feet at highest point in city limits in Sanbornton Hills; 280 feet at lowest point in city limits on Merrimack river.

Area, Approximately 40 square miles.

Organization of the City Government For the Year 1949

Inaugural

Delivered Jan. 3, 1949, by Mayor Eugene S. Daniell, Jr.

This year, the management of our City will be almost completely in the hands of our City Manager. He has had nine months in which to become thoroughly familiar with his job. The Manager form of government has been given a tremendous vote of confidence. It would, therefore, seem that the place of the Mayor and Council is purely secondary.

There has been much talk of this year's appointments by the Council. There will be some changes because the present incumbents have requested replacement, others because it was felt that the change was necessary for the welfare of the City. Finally, some will go because they were given their positions originally as loyal party workers. Since their appointment there has been a change of party control. During the past year, they continued party workers as distinguished from party members, and for this reason, we believe they should go. No person is being replaced because of his political party alone.

All members of the Council are pledged to economy, and a majority and myself have set a three-dollar cut in the tax rate as our goal. It can only be reached by the exercise of extreme caution in the granting of any of the many requested expenditures which are bound to come before the Council this year.

This year, once the Dainty Dot Hosiery Company has definitely decided on coming to the community, and that should be only a matter of a few days, we intend to go ahead with a municipal industrial development area. It will contain space for at least three small factories and should require an outlay of about \$10,000.00 Any reputable concern will be given a deed to a suitable lot if they enter a binding agreement to build a factory on the site. A companion project to the industrial development area should be Low Rent Housing. This would cost the City

little or nothing and would mean the expenditure of possibly a half million dollars in the community. The biggest obstacle to this project is that to the present time, we have had very few who would fill out an application. They are available at the City Hall and at my office. I plan a drive to get all who are interested signed up. These projects are worth the best efforts of us all. Each is easily possible if the community will back them. If we are successful in setting them up, Franklin will have a right to claim itself as one of the most progressive cities in New England. Let's work together to make this an accomplished fact.

All increased or unusual expenditures, with these two exceptions should be strongly discouraged by this Council. In addition to the reasons for economy that are apparent to us all, we as a community must not forget that we are engaged in very serious legal proceedings with the Public Service Company of New Hampshire. The evidence on this case is in, but the decision of the Court will not be known for some time. We could win the case in which our only expense would be some \$15,000.00 for expert witnesses plus attorneys' fees. What they will amount to, I cannot guess. Should we lose, it could mean a million dollar loss in our assessed valuation plus liability for damages in the amount of better than \$100,000.00. Until we know the outcome of this case, which could be a major catastrophe for the City, we have no right to practice anything but extreme economy.

During the coming year, this City should grow both industrially and in population. To accomplish this, we must do more than hope. Statistics will show that since 1900 this City has apparently suffered from a blight. The community, during that time, has grown less in population than any other city in the State. It has grown less than the County and less than the State as a whole. Our industrial growth, due to the loss of our paper industry, has been negative. We were not like Manchester, which lost Amoskeag, able to replace the Paper Company with other industry. Instead, the mills were destroyed and our power installations blown up.

We all would do well to ponder the reason for this tragedy. I do not believe it can be laid at the door of either political

party, for both have controlled the City for long periods and yet failed to cure the blight. I believe that the source of the disease is external and not internal. The industrial heart of Franklin is the Winnepesaukee Valley. There, you can see the terrible effects of the disease which has afflicted our City. Eight-inch trees grow amid the ruins of the five prosperous mills which once were the pride of our community. The squirrel, the rabbit, and an occasional wondering blue-jay have replaced the throngs of happy workmen who once made the valley ring with the symphony of sounds which comes from a prosperous and busy industrial area. Our large industrial taxpayers who rightly feel heavily burdened with municipal taxes might well ponder how much lighter their burden would be, were it shared today by these once healthy enterprises which have fallen prey to our economic cancer.

The taxpayer should be interested to know that the present owners of this area, an out-of-state corporation, in the recent tax case with this City, testified under oath that this valley, from the standpoint of taxable value was worthless. Yet we cannot buy and rebuild because the Public Service Company of New Hampshire will not sell at any price.

"Ill fares the land to hastening ills a prey
where wealth accumulates and men decay."

In those few words the great poet Goldsmith has described our ills. He thought then of princes and lords. Today our destroyer is no less real as a foreign corporation with less interest in us than an acre of the Arabian desert from which it might hope to squeeze a dollar more in corporate profits. If we, as men, have not decayed beyond hope, there is a remedy. First, we have to realize that we are fighting business men who sincerely believe themselves to be honest and upright men. Actually, most revolutions were bred from such men, so privileged economically or politically that they are blind to the chaos which they produce. I believe it is necessary that we speak bluntly. We must know too that there will be no help from a press which is free only to express the will of the corporations which subsidize it by ad-

vertising. What we must realize is that in this City the greatest enemy to our future growth is the Public Service Company of New Hampshire. Perhaps in no other City in the United States can it more truly be said that we are endowed by God and cursed by public utilities.

If we, as a community can see the problem, there is a remedy. Our delegation to the General Court must fight for remedial legislation. Our citizens, both large and small, must constantly fight by word and deed for our release from the blighting influence of this foreign power. The glory and strength of Democracy is that there is always a solution for our ills if the people will demand it.

One word in closing on the City Manager form of government. I have no worry of its value so long as we have our present City Manager. It is unquestionably more efficient than our former system. My sole misgiving is that it may, over a period of time, tend to deaden the interest of the people in their own government. The greatest enemy of Democracy today is not Communism, but the fact that even in a Presidential election, a majority of our citizens were too busy or disinterested to vote. So, if we are to have a new charter for the City, which we need and which I understand the Good Government Group is preparing, I hope that they will not attempt to put all real power in the hands of the Manager. In particular, I would oppose any attempt to put the control and appointment of assessors in the hands of a City Manager until or unless there was a State law exempting small homes occupied by their owners to the extent of about \$1,000.00 with the amount graduated in accordance with the number of children in the family. Today there is an unwritten law in most communities of our State which, in a rough way, accomplishes this end. Obviously, a professional appraiser, is much less likely to follow the unwritten law.

City Manager's Report

To the Mayor, Councilmen and Citizens of Franklin:

We have just completed the second year of operation under Mayor-Council-Manager form of Government. It gives me great pleasure to report that the two years under this form of Government, have been very successful, both financially and otherwise. The success of this type of Government depends entirely on the co-ordinated efforts of many. The Mayor, Councilmen, City Clerk, and all City Employees, through their untiring efforts and splendid cooperation, are surely responsible for attaining such a height of success.

The 1947 valuation,	\$8,842,272.25	Tax rate \$3.80
Total commitment	\$ 329,049.49	
The 1948 valuation,	\$9,167,208.50	Tax rate \$4.30
Total commitment	\$ 383,651.74	
The 1949 valuation,	\$9,236,953.00	Tax rate \$4.55
Total commitment	\$ 405,973.52	
The 1949 Appropriations		\$405,973.52
The 1947 Appropriations		\$329,049.49
Difference		\$76,924.03
Schools:		
1949		\$164,000.00
1947		115,000.00
		\$49,000.00
County Tax:		
1949		\$41,079.41
1947		28,300.00
		\$12,779.00
Increase in salaries, excluding schools		\$6,000.00
Purchase of equipment, truck, grader, snow loader		\$18,000.00
Welfare, 1949		\$23,000.00
Two platoon system, fire department		\$5,000.00

CITY MANAGER'S REPORT (Continued)

Savings:

Unexpended balance 1948	\$23,152.00
Parking meter revenue used to reduce police department appropriation, for two years	6,000.00
The employing of one man instead of two, to supervise work down at the dump, and clean streets, 2 years	4,490.00
Firemen doing work in highway department replacing mechanic's helper, 2 years	4,490.00
A change in the office. A more efficient and pleasant arrangement, and a reduction in salaries	1,100.00
Abolishment of the office of City Solicitor and clerk of water board	1,000.00
Firemen taking care of police telephone twenty-four hours a day, saving the hiring of a desk man, at \$1,500 per year, 2 years	3,000.00
Purchasing, and this is estimating a saving very low at \$2,500 per year	5,000.00
Unexpended balance 1949	7,214.50
Total	\$55,446.50

If you go back to your 1947 city report, you will find a deficit of \$8,790.25. Your 1949 report shows a surplus of \$18,701.61.

Improvements:

New source of water supply.

Streamlined highway, police, fire and welfare departments.

Balanced budget both years, without curtailing any services.

Saved the city \$55,000.00, because of close supervision of all departments, plus careful buying

Constructed a mile of sewer. This is at least twice the distance of sewer construction in the previous five years.

Bought a new fire truck, with money from surplus.

Bought second hand fire truck, which city mechanic and firemen built into a tank truck.

Sold roller surplus equipment for the city, and bought a much needed grader.

Radio in police cruiser.

Installed parking meters, revenue to the city of over ten thousand dollars per year.

I could list many more, but as I am limited to a certain amount of space in the city report, I have listed the most important facts and figures.

It has been a pleasure living and working in Franklin. Wish I could stay longer, or forever, in fact, but as I want to continue in the profession of City Manager, I must go where they need and desire to have me.

In all sincerity, I want to thank all of you, for your splendid cooperation and help extended to me.

Respectfully submitted,

ROBERT C. VIOLETTE

Exaugural

FOR THE YEAR 1949

Delivered Jan. 4, 1950, by Mayor Eugene S. Daniell, Jr.,
on his retirement.

Father Daniszewski, Mayor-elect Welch, Members of the old and new City Council, Citizens of Franklin:

My two terms as Mayor of this City have been both a pleasure and an honor which I shall never forget and for which I shall always feel indebted to the citizens of Franklin. I am grateful to the members of my Council for their co-operation and advice, as well as for the opposition which kept us on our toes but never required the use of a veto.

During the past three years, the membership of the Council has changed from three to six to six to three in favor of independent political action. That should indicate clearly to all that our citizens have agreed with me in saying, "There should be no machine politics in Franklin."

By a margin of sixty votes we have given up the City Manager form of government. This I regret, principally because it means we lose Mr. Violette, one of the finest men I have ever met, and a man who has done much for the City during his stay with us. The referendum ending his administration was hard fought and fair. We who lost must co-operate to make the new administration the best and most efficient possible.

There has been talk of harmony for 1950. I hope it materializes and all of us should strive to attain it. At the same time, we must never forget that if necessary, Democracy is worth fighting for.

In the course of the past few elections, I have made many serious charges against the opposition. Never without first being convinced that they were absolutely justified. Now, in the interest

of better understanding and a true perspective, after a year in which I have had considerable experience with State politics, I feel it only fair to say that from the standpoint of political health and well being, conditions in our City at their worst with the exception of one event were still vastly better than past or present conditions on a State level.

It is no secret that we will shortly have a new Postmaster. It will go to a Democrat and it should go to my predecessor in office, Mr. Henry J. Proulx. He and I will never agree and I am not changing previously expressed opinions. Nevertheless, it is true that no man in the State during the past decade has carried on a more sustained and successful campaign against the excesses of the electric utilities. He was instrumental in obtaining three so-called voluntary rate reductions from the Public Service Co. Since his activities have ceased, it is significant that there have been no reductions and one major increase, while the Telephone Company has gone completely hog-wild. Mr. Proulx's great accomplishments in this field alone entitle him to the unanimous support of the community as a candidate for the postmastership.

Tonight, it is both a pleasure and a deep satisfaction to turn over the government of our City to a friend. I believe that I was the first citizen of Franklin to publicly endorse him as a possible candidate for Mayor. In the election, he received over five hundred , and I believe it was a 1,000, more votes than any previously elected Mayor. He has a tough job which will be much easier if we who voted him into office will continue to give him our overwhelming support.

I wish the City a prosperous and harmonious New Year, and to Frank Welch, our new Mayor,—success and the continued support of his fellow citizens.

City Government

CITY COUNCIL

Mayor

Elected annually on the fourth Tuesday of November. Salary \$200.00 a year.

Eugene S. Daniell, Jr.

Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term expires
Ward 1—Allen Atwood	January 6, 1950
Charles H. Slack	January 5, 1951
T. J. Sokul	January 3, 1952
Ward 2—Theodore Gosselin	January 6, 1950
Lawrence Gauthier	January 5, 1951
Alcide Labranche	January 3, 1952
Ward 3—Scott Coen	January 6, 1950
Frank Gerry	January 5, 1951
Richard Clarenbach	January 3, 1952

City Manager

Salary \$7,000 a year

Robert C. Violette

City Clerk, Tax Collector, Clerk of Board of Assessors and Custodian of Memorial Hall

Elected annually by the City Council. Salary \$3400 a year.

Mildred S. Gilman

Overseer of the Poor

Elected annually by the City Council. Salary \$47.30 a week.

Gertrude Brodeur

City Treasurer

Elected annually by the City Council. Salary \$242.00 per year.

Auditor's Report

CITY OF FRANKLIN, NEW HAMPSHIRE

FOR THE YEAR 1949

LEONARD D. RICCIO

Certified Public Accountant

Manchester, New Hampshire

January 6, 1950

To the Honorable Mayor and City Council
City of Franklin
Franklin, New Hampshire

Gentlemen:

At your request and in accordance with the City Ordinances, I have made an examination of the books and underlying records of the City of Franklin for the fiscal year ended December 15, 1949 and submit herewith my report comprising exhibits, supporting schedules and comments.

Scope of Audit

The examination for the year under review was conducted by means of analyses, verification and independent corroboration. I have examined or tested such records and supporting evidence by the methods and to the the extent I deemed appropriate. Amplification of the scope of audit appears in the comments under each subject.

The General books of the city are kept on a cash basis except for the taxes, the accounts receivable and some accruals. Independent verification was obtained on a substantial number of outstanding taxes and water accounts receivable.

BALANCE SHEET—GENERAL FUND

EXHIBIT A

Cash on Hand and in Banks—\$29,709.59

Cash on Hand was verified by count as at the close of business

on December 15, 1949 and cash in the bank was reconciled to the bank statement and the independent verification received directly from the depository. All checks cancelled during the year were examined and the receipts traced to the bank deposits.

Accounts Receivable—\$1,334.59

A detail listing comprising the outstanding accounts receivable was in agreement with the above. Most of the accounts are the result of charges by the Highway Department. The Accounts are aged as follows:

Current	\$398.20
0 to 30 days	26.00
30 to 60 days	2.08
60 to 90 days	317.50
over 90 days	590.81
	\$1,334.59

Taxes Receivable—\$38,410.23

The outstanding Taxes Receivable as at December 15, 1949 was \$38,410.23, against which there is a reserve for uncollected taxes in the amount of \$1,460.24. Exhibit A—Schedule 1 details the activity in the levies of the various years and discloses the differences between the control and the detail accounts as at December 15, 1949. The variances shown on this statement were substantially the same as those determined at the end of the previous fiscal year, which indicates that the activity in the controlling accounts for the current year was correctly reflected in the detail accounts.

Requests for confirmation were mailed to several hundred of the outstanding accounts to which a substantial number replied in concurrence. Any differences reported to me were traced and satisfactorily explained. It is to be noted that approximately 92% of the 1949 tax levy was collected.

AUDITOR'S REPORT (Continued)

In addition to proving the valuation footings and the ward books to the Assessors' Tax Warrant, the 1949 tax warrant was completely footed for accuracy. The daily receipt stubs on the taxes collected were completely checked to the cash books and the cash receipt books for the various years were footed and checked to the tax ledgers.

The 1949 tax rate of \$4.55 as approved by the State of New Hampshire Tax Commission was confirmed by direct correspondence.

Unredeemed Tax Sales—\$1,496.00

Property Acquired by Tax Deeds—\$1,082.29

The above reflect property acquired as a result of nonpayment of Taxes. These items were accepted as shown on the books, although a listing of the accounts was in agreement with the controlling account.

Due from State of New Hampshire—\$14,192.02

This caption embodies collections on interest, railroad, and savings bank tax as well as hedge hog bounties due the City of Franklin from the State of New Hampshire.

Appropriation Charges to 1950—\$617.58

This title represents the balance due from the State of New Hampshire on Town Road Aid.

Temporary Loans in Anticipation of Taxes—\$65,000.00

The above amount represents the balance due the First National Bank of Boston on loans totaling \$250,000.00 borrowed in anticipation of taxes and was independently confirmed by correspondence. All notes paid during the year under review were produced for my inspection.

For several years the loan in anticipation of taxes has been outstanding at the close of the year. A comparison of this obligation with the total Taxes Receivable shows that the \$65,000.00

loan is greater than the \$38,410.23 Taxes receivable by \$26,589.77. Assuming complete collection of taxes, there would still be insufficient funds collected to retire the obligation. Therefore, it seems to me that some provision should be made to amortize the liability from current income.

Withholding Taxes and Blue Cross Deductions—\$792.18

This caption represents the amount withheld on payrolls and due the various agencies.

Reserve for Soldiers' Bonus Taxes—\$503.55

This item represents the amount due the State of New Hampshire on the special Soldiers' Bonus Tax and is due when collected.

Parking Meters Unexpended Balance—\$812.70

The unexpended amount derived from parking meters is reflected by the above caption. Cash for this item is included in the Cash in Bank Account, and is to be used for the regulation and control of traffic. A transfer of \$1,376.00 to Highway and \$624.00 to the Police Department was made to reimburse these departments with expenditures attributable to the control of traffic.

Surplus December 15, 1949—\$18,701.61

This item is shown in detail on Exhibit A—Schedule 2. The charge to Surplus in the amount of \$10,215.50 was used as a budgetary credit for the year 1949 as approved by the council. Exhibit A—Schedules 2A, 2B, and 2C details the activity for the operations of the current year and substantiate the amount transferred to Surplus as at the close of the year in the amount of \$14,076.10.

BALANCE SHEET—GENERAL INDEBTEDNESS

EXHIBIT B

The Balance Sheet—General Indebtedness discloses the City liability with respect to borrowings on both serial bonds and long term notes as at December 15, 1949. The indebtedness is detailed on Exhibit B—Schedule 1. I examined all cancelled bonds and interest coupons paid during the year.

AUDITOR'S REPORT (Continued)

BALANCE SHEET—TRUST FUNDS

EXHIBIT C

The Balance Sheet—Trust Funds records the assets and sources of such assets in the custody of the Trustees of the Trust Funds.

Cash in Bank—\$42,724.71

Cash in the Commercial and the Savings Bank was reconciled to the Bank Statement and the Savings Bank Books as well as the independent confirmation received from the depositories.

Investments—\$72,623.50

All of the securities were inspected in the presence of two trustees of the trust funds as at December 15, 1949. Exhibit C—Schedule 1 details the various trust funds and shows the activity for the year. It also discloses the break down between the cash and investments.

BALANCE SHEET—WATER WORKS

EXHIBIT D

The Balance Sheet—Water Works sets forth the financial condition of the Water Works of the City of Franklin as at December 15, 1949.

Cash on Hand and in Banks—\$16,423.72

The Cash on Hand was verified by count and the cash in the bank was reconciled to the bank statement. These amounts were independently verified with the depositories.

Accounts Receivable—\$9,047.33

A listing of the detail accounts coincided with the controlling accounts after an adjustment. Outstanding balances as at December 15, 1949 were verified by circularization.

Inventory—\$4,800.00

The Inventory was accepted as submitted by the Superintendent and no attempt was made to examine either the physical items or the prices used.

Investment—U. S. Treasury Bonds—\$14,009.50

Exhibit D—Schedule 1 details the above account. The bonds were examined in the presence of two trustees of the Trust Funds in whose custody the bonds are kept. The Investment is in accordance with the Public Laws of 1943—Chapter 160 and is reserved for future construction.

Fixed Assets—\$311,668.30

This item is detailed on the Balance Sheet showing Cost, Reserve for Depreciation and Net Book Value. As at the close of the year the Purification Equipment account in the amount of \$31,261.04 and the corresponding reserve for depreciation of \$11,433.42 were charged off the books as the asset was replaced by the new Water System. The difference of \$19,827.62 was charged to Surplus as Loss on Scrapping Purification Equipment.

Due City of Franklin—Bond Fund—\$137,000.00

The above amount is due the City of Franklin—General Fund for bonds issued, known as Water Bonds and sold in 1948.

Surplus—\$52,139.49

The Surplus account is detailed on the Balance Sheet. The Council approved transfers of \$2,000.00 and \$290.00 to the School Department on September 7, 1949 and on December 5, 1949 respectively. Since there was no indication as to the disposition of this item it was assumed that the Surplus was to be charged and the books were adjusted accordingly. Transferring funds from a self-supporting department to a revenue appropriation department is one method of financing to which I take exception. Certainly if the Water Works is to operate as an independent

AUDITOR'S REPORT (Continued)

unit, it should not be required to transfer its funds to another department. After the budget is prepared, the appropriation made, and the tax rate established, a department should be restricted to expend to the amount limited to and controlled by the appropriation. Appropriations are made for that reason.

If there appears to be an unnecessary accumulation of Surplus, it would seem equitable that these funds be used to improve the water facilities, increase the water service, or reduce the water rates.

The profit for the year was \$557.04 as shown on Exhibit D—Schedule 2 which also compares the operation for the years 1947-1948-1949. The principal factor affecting the large variances in profit for these years was in the increase in depreciation in the amount of \$4,899.59 and the interest charge on bonds outstanding in the amount of \$3,262.50.

School District—Statement of Receipts and Disbursements

Public Library—Statement of Receipts and Disbursements

Overseer of Poor—Statement of Receipts and Disbursements

The books and records of the above were examined and cancelled checks and vendors invoices were checked to the cash disbursements records. Cash in the banks at the close of the year was reconciled to the bank statement and independently confirmed by the various depositories. Vendors invoices unpaid as at December 15, 1949 are not reflected on the statement since the City is on a cash basis.

Payrolls

I examined all Payroll checks cancelled in the year and reconciled the bank statement. I further test checked the endorsements on cancelled checks with the signatures on W-4 Withholding Tax Exemption Certificates.

City Clerk's Office

The books and records of the City Clerk were completely checked. The daily Cash Collection register tapes were traced to the Cash Receipt book and the bank deposits.

Automobile permits and dog licenses issued were verified with the cash books which were completely footed. Business licenses, Marriages, Sunday Dealers, etc., issued during the year were also checked to the cash book.

GENERAL COMMENTS

Several changes should be made in order that the books of the City more accurately reflect its financial status. Under the present system, the departments are charged with expenses only when the commitments are paid. Since the liabilities incurred at the end of the year can directly affect the financial status and the activity of the appropriation, I would suggest that the City change its basis from a cash to a cash-accrual basis. The departments would then be charged with the outstanding liabilities to reflect more clearly their activity. If the Council approves this change, the departments would be required to submit all liabilities as at the close of the year.

Establishing an internal control system is urgently required. Internal control is a system in accounting whereby the work is so laid out that no part of the accounting procedure is under the absolute control of any one person and that the work of one employee is complimentary to that of another. From an auditor's point of view, the lack of such a system necessarily requires a greater amount of checking and verification. A review of the records in several of the departments reveals the necessity for establishing the system.

AUDITOR'S REPORT (Continued)

Each department should be required to submit an inventory at the close of each year. The schedule should include both expendable and unexpendable items. The unexpendable items not having a manufacturer's mark should have an identification mark assigned to them and a complete record of such inventories should be maintained in the general accounting office.

Exhibit A—Schedule 2C sets forth the Budgetary operations for the year and discloses a net unexpended balance of \$7,214.50. A few departments overexpended their appropriations. The largest amounts involved items for which there was no appropriation. In the case of abatements, however, the overlay was insufficient.

Greater control can be exercised over the departmental expenditures, if the appropriation of the larger departments is divided into smaller units. For example: The Fire Department could be divided into the Fire Department and Fire Alarm; the Highway Department could be segregated into Appropriation for Highways, Sidewalk, Snow Removal, and Highway Resurfacing.

An analysis of the abatement of property taxes discloses the following reasons for their issuance:

Reason for Abatement	Levy of 1949	Levy of 1948	Total
Incorrectly or over assessed	\$2,134.67	\$719.35	\$2,854.02
Duplicate Assessments	680.23	674.02	1,354.25
Veteran Exemption	407.50	176.30	583.80
Out of Business		21.50	21.50
Error in Inventory	45.50		45.50
Property Deeded to City	62.56		62.56
	\$3,330.46	\$1,591.17	\$4,921.63

Subsequent Assessment on Property Taxes for the above two years was as follows:

\$4,973.61	\$23.65	\$4,997.26
------------	---------	------------

Although the grand total on the above items practically offset each other as far as finances are concerned, greater precaution in preparing the tax roll would eliminate such active accounts.

In conclusion may I summarize the salient points which should be carefully considered:

1. Amortizing the Loans Payable in Anticipation of Taxes.
2. Eliminating transfers from self-supporting departments to other departments.
3. Changing the accounting system from a cash to a cash-accrual basis.
4. Establishing Internal Control.
5. Maintaining Inventory records.
6. Eliminating Departmental overexpenditures.
7. Providing an appropriation for all expenditures.
8. Subdividing larger appropriations into smaller units.
9. Taking greater precaution in preparing the tax records.

I wish to express my appreciation to all the City Officials and the members of their staffs for the cooperation and courtesies extended me during the audit.

Respectfully submitted,

LEONARD D. RICCIO,

Certified Public Accountant

Catherine M. Chase	Library Assistant
Roberta E. Goodell	High School Page
Ralph C. Colcord	Janitor

The year 1949 has seen progress in the support and the service at the Franklin Public Library. Last year reference was made to the low per capita appropriation from the city, \$1.21, when \$2.00 is considered the minimum for towns and cities with more than 3,000 population. The appropriation of \$9,000.00 for the past year brought the per capita rate to \$1.33, a forward step on the part of the city. At the library the increasing circulation has been apparent and the final figures proved the circulation 2,576 higher than that of 1948. A grand total of 47,063 loans have been made to adult and juvenile borrowers. Franklin now has a per capita reading score of 6.82, based upon our population of 6,749.

Additions to the book collection have been 879 volumes, 734 by purchase and 145 by gift. 166 of the additions were in the children's room. Withdrawal of worn-out books has numbered 183. Magazines received are 129, of which 38 are gifts. Seven newspapers are received either daily or weekly. The count for newly registered readers is 427, of whom 83 are from surrounding towns and study, work or shop in Franklin. The library file of active borrowers contains 3,013 cards; 2,654 are residents and 359 non-resident readers. For the questing readers who want books not in the local collection 97 volumes have been borrowed, and Franklin has loaned 12 books, through the interlibrary loan system. It is of interest to note annually the ratio of the type of books people prefer to read. This time it is 56% for fiction, 22 1/3% for non-fiction, and 21 2/3% for juvenile books. The percentage registers an increase in the fields of fiction and non-fiction, with a slight drop in children's reading.

LIBRARY (Continued)

The operating cost of the library for the year has been \$10,139.36. Of this amount \$6,332.91 was for salaries and \$1,763.05 was spent for books and magazines. Fines received were \$451.82 and \$509.18 from the rental collection. Chief repairs have been the sheathing of the library office walls with scored plywood and the ceiling with celotex squares to cover badly cracked walls and ceiling. The terrazzo floor in the entrance hall was repaired and an outside light was placed at the back door of the building. Aside from the customary good care given the grounds by Mr. Fred Longley, the trees, including the old willow on the riverbank, have been given needed attention by the Amalia Tree Surgeons of Manchester, Mass.

Exhibits of particular interest have been articles from China in the 1800's, the Aleutian Islands, Tilton ceramics, photographs of early days on Central street, a doll collection, and poster display depicting Christmas customs in foreign countries. The garden Club was responsible for two attractive winter bouquets under the Gold Star picture and in the reading room. Decorations of boughs, wreaths, candles and cones made the library festive during the holiday season.

The Parent-Teacher Association arranged with the librarian to have a permanent grouping of books of interest to parents and teachers. Of other displays of books, according to season on current interest, the most steadily popular are: (1) Historical novels, and (2) Books into movies. The brief weekly book notes, called "Book Suggestions" have appeared regularly on the editorial page of the Journal-Transcript at the invitation of Mr. Lewis, the editor.

All members of the staff attended one or more sessions of the New Hampshire Library Association meeting at Manchester. The librarian gave book reviews for a meeting of the Business and Professional Women's Club of Franklin, and a talk on exhibits at the Library Institute, which the State Library arranged to have held in the Draper Room and adjoining rooms, June 20-25. Grade I at the Hancock School visited the children's room during Book Week, enjoying the new books and the collection of dolls. Several trustees and the librarian attended the Author Tea at

the Laconia Tavern, when many authors appeared. Frances Parkinson Keyes was the chief speaker.

High school English classes have become familiar with library arrangement, the catalog and reference books through assignments to know the library better. Library Hall is used regularly by the Woman's Club and the Hospital Aid Society. Other groups have used the hall for occasional meetings.

The library has received notice that it is a legatee by the will of the late Frances M. O. Carter. Many friends continue to make gifts of books, magazines and pictures for the good of the work the library tries to accomplish. The Memorial Book Shelf has had twelve additions during the year. It is impossible to list gifts in the limited space at our disposal but the gifts and the thought behind them are appreciated by the trustees and the librarian. A special plea is being made for pictures of Franklin scenes and persons, to be given to the library for safe keeping, identification, display on occasion, and for growing historical interest and value in future years.

Respectfully submitted,

MILDRED J. PEASLEE

Librarian

MARGUERITE E. HOLMES,

Treasurer.

Board of Education

ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

My fifth annual report is the forty-ninth of reports to the School Board made by school superintendents. It is with considerable pleasure that I report to the Board that conditions in the schools are favorable. The morale among teachers and other employees is high and pupil attitudes are good. While there is much to be done in the schools of Franklin to further improve conditions, most of the improvements center around physical changes in the school plant and improvements in textbooks and other instructional materials. These are reviewed in some detail in another section of the report.

Financing the School Program:

The salary schedule for teachers has been in full operation since September, 1948. The wisdom of adopting such a plan for teacher compensation is increasingly evident as time goes by. Such a plan provides for no greater expenditure of funds for salaries than would any other method. The salaries of Franklin secondary teachers are a little below the average of the state, while the salaries of elementary teachers are just a little above. In view of the fact that the greatest shortage of teachers is on the elementary level, this is a desirable situation from the point of view of staffing our schools.

The loss of better than \$20,000 of revenue from state sources throws an increased burden upon local real estate taxpayers. It was not anticipated that the provision for state support adopted by the 1947 legislature would be repudiated by the 1949 assembly. The Mayor and City Council have made available funds necessary for the school department to meet its budget for the year just closed. It would be most unfortunate if the many gains made in recent years were to be lost because of the inability of the community to finance the school program.

Personnel:

Changes during this year have been fewer than in any recent year. At the Franklin High School, Miss Rowena Palmer resigned as teacher of social studies to do social service work. Her place was filled through the appointment of Mr. Frank Crowley, a graduate of Harvard University with a Master's Degree in education at the University of New Hampshire. Mr. Antonio Zullo resigned as coach of athletics and teacher of mathematics to accept a position in Waltham Massachusetts High School. Mr. John Ball, a graduate of Cortland State Teachers College with a Master's Degree from the University of Massachusetts, was selected to take over Mr. Zullo's teaching duties and to coach basketball. Mr. William Hoban, a member of our staff for two years, was made director of athletics and coach of football. Mr. Ray Franklin resigned to accept a position as teacher in Keene High School. His position was filled through the appointment of Miss Rosalind O'Brien, a graduate of Wellesley College who has done some advanced work at Harvard University.

In the elementary schools Mrs. Mildred Drazen resigned in January to accept a position in Delaware. Her place was filled through the transfer of Mrs. Jessie Tracy from the fifth to the third grade, and the appointment of Mrs. Dorothy B. Leonard for the remainder of the school year as teacher of the fifth grade. With the removal of the sixth grade from the Hancock School, Mrs. Edwina Connor became fifth grade teacher and Mrs. Anne P. Abbott, a graduate of Plymouth Teachers College with many years of successful experience took over the sixth grade at the Junior High School Building. At the Nesmith School Miss Catherine Curran's position as teacher of the first grade was filled through the appointment of Miss Clara E. Heselton, a graduate of Keene Teachers College with a B. S. Degree who had had five years of successful teaching experience in Warner.

Superintendent's Report (Continued)

For a number of years it has been evident that a specially trained person to assist with difficult cases in the field of reading would be a desirable addition to our faculty. Miss Anna Roberts was engaged in September to work with the pupils in the upper elementary grades in the field of remedial reading. Miss Roberts has had previous experience in this type of work at Proctor Academy in Andover. In the few months that she has been working with our pupils, many gains have been noted.

The Educational Program:

The problem of adjusting the curriculum of our schools to the needs of individual pupils is one of constant concern to all on the faculty. Curriculum committees composed of interested teachers have made study and recommendations in the following areas: In the elementary school, in geography and history, arithmetic, reading, English and spelling. On the secondary level, committees have been at work in mathematics, science, social studies, home economics, English, commercial subjects, and mechanical arts. Almost without exception, these committees emphasize the need for more up to date textbooks and improved supplementary materials.

We have made a good start in the field of audio-visual education but more money for the purchase of equipment and materials in connection with this work could be used to advantage. We have but one sound motion picture projector trying to meet the demands of all of the schools. To take full advantage of the many splendid materials available for instructional purposes, a sound motion picture projector should be available for each building.

The problem of providing an educational background for the many youngsters who terminate their training on graduation from high school and, at the same time meeting the formal requirements of college preparation for the relatively few who go on to college presents a complex and difficult problem. Eight out of ten of the graduates of Franklin High School have no further formal training after leaving our high school and they need to be taught skills that will make them competent workers in business and industry, as well as to obtain background information that will make them good citizens of the community and competent homemakers. The things that the larger group needs to know immediately in order to meet the aforementioned objectives are, in many instances, dissimilar from the things that those who are going on for college or university training need to know. Since our school is not large enough to segregate those preparing for future advanced study, the teacher's instructional tasks are complex and difficult if both groups are to be well served. Many pupils stay in school through the twelfth grade who would have left school at the completion of the eighth grade a quarter of a century ago. It is the responsibility of the school to provide for this group an educational opportunity that will prove beneficial to them, and this complicates still more the problem of classroom instruction. It is my feeling that the faculty of Franklin High School is fully aware of the challenge of these problems and has assumed the responsibility of seeing that the needs of all of our boys and girls are met. This problem is not unique to Franklin High School though it should be noted that a smaller percentage of our people attempt to go on to college or university than of those graduating from high schools throughout the New England area. Colleges and universities are relaxing the somewhat rigid requirements for entrance, from the point of view of subject matter selection. High grade work is more often the criterion. Many more of the boys and girls who graduate from our school would benefit from further training and ought to be encouraged to continue their study.

Superintendent's Report (Continued)

The Physical Plant:

The schools of the community are in better physical condition than they were at the conclusion of the war. There are still, however, many maintenance items that ought to be given immediate attention and many more for which provisions should be made in the very near future. It is not economical to let the physical plant deteriorate to the point where the cost of repair is greater than would be the accumulated cost of year to year maintenance. The schools of the community should be a source of pride to those who contribute to the support of them. Those who pay taxes do so more cheerfully when the outward evidences of the financing of the schools are such as to reassure them. Would it not be advantageous to float a bond issue in order that schools may be put in first-class physical repair rather than to have each year increasingly heavier demands in the school budget because of maintenance problems? Once in good repair, the schools may be kept in that condition through a normal expenditure each year.

It is apparent that the effects of the increased birth rate in the City of Franklin in 1946, 47, and 48 will create real problems for the schools commencing in the fall of 1952. It is not too early to consider ways and means of accommodating the increased enrollment.

Some provision for the maintenance of the playground areas surrounding the High School and Junior High School ought to be made. Under the care which the school department is able to provide with its limited personnel and physical equipment, the grounds are deteriorating. The continued neglect of the upkeep of these areas would be most unfortunate.

Changes and Improvements During the Past Year:

1. Electric typewriter was provided for instruction of pupils in the High School Commercial Course.

2. Additional pupil seating to provide movable desks and chairs for all of the lower grade rooms at the Nesmith School was provided.

3. Tablet arm chairs were provided for the use of left-handed pupils at the Senior High School.

4. Installation of a new stove and hot water heater was possible at the Hancock School through the use of funds made available from the operation of the school lunch program.

5. A 16 mm. sound motion picture projector was purchased for the use of the High School and Junior High School Audio-Visual Education program.

6. Completed painting of the interior of the Daniell Junior High School.

7. A part-time remedial teacher was employed to work with pupils in grades four, five, and six.

8. Through the generosity of Donald S. Kimball, who donated a second-hand fire escape and the cooperation of the Mayor and City Council, fire escape installations were made at the Hancock and Nesmith Schools.

Conclusion:

The support of a good public school system should be a matter of concern to every citizen of the community. Franklin has schools of which the community may rightly be proud. The challenge to maintain and improve the school opportunity for Franklin boys and girls is a matter of continuing concern.

I consider it a privilege and pleasure to serve as your superintendent of schools. The friendly cooperation of all of those associated with the Franklin schools makes my job a pleasant one.

Respectfully submitted,

DONALD W. DUNNAN,

Superintendent of Schools.

REPORT OF THE HIGH SCHOOL HEADMASTER

The total enrollment in Franklin High School on January 1, 1950, is about the same as it was last year. The enrollment by classes is as follows:

	Girls	Boys	Total
Seniors	50	41	91
Juniors	47	53	100
Sophomores	47	46	93
Freshmen	51	57	108
Post Graduate			4
Totals	195	197	396

Faculty:

The additions to the faculty this year are enthusiastic in their approach to class work, and they have accepted the responsibility for many extra curricular activities. Miss O'Brien, teacher of English, is also Junior Class Advisor and Faculty Advisor of the school newspaper. Mr. Ball, teacher of General Science, Senior Science, and Basketball Coach, also has assisted in the coaching of Football and is coaching Baseball. Mr. Crowley, teacher of Social Science, is also advisor to the Student Government and was the faculty advisor for the Winter Carnival. Mrs. Agatha Snodgrass has replaced Mrs. Jane Fredette as High School Secretary.

Through the present school year three Cadet Teachers from Plymouth Teachers College and one from the University of New Hampshire will have trained in the High School. Members of the faculty chosen to train these teachers are: Mrs. Chamberlain, Miss Dolloff, Mr. Ide, Mrs. Pickess, and Miss Pellerin. The supervision of a cadet adds to the load already being carried by our teaching staff. However, we feel that the service rendered to the profession is well worth the effort made. With this training, new teachers are better prepared to enter the profession.

Nine members of the faculty are taking the course "Organization and Administration of a Guidance Program." This is being

conducted by Dr. Hyde of the New Hampshire State Department of Education. It is hoped that our offerings in the area of Guidance will be greatly improved as a result of this faculty effort.

Activities:

The Activities program is similar to that of last year. We no longer have the Radio Club because the local studio of WLNH was discontinued. The experience gained through a weekly radio program was very valuable to the group participating. The Band has now developed to a fifty-seven pupil organization. As a result of the efforts of the Music Director, Miss Moses, the State Auditions Festival was held in Franklin, during May, 1949. About two thousand boys and girls took part in the program which included bands, orchestras, and choral groups. An impressive parade through the Main Street closed the program.

Through the cooperation of a local dancing teacher, Mrs. Elizabeth Monahan, instruction in Ballroom dancing was made available to nearly two hundred boys and girls at a nominal fee. There were twelve weekly sessions through the winter months. The resulting benefits to the boys and girls were many, and the effects are apparent at our social activities.

We expect to form a chapter of the National Honor Society during this school year. This organization will give recognition to outstanding scholarship and promote scholarship throughout the student body. At the present time, very little recognition is given to the pupil who is a scholastic success.

Curriculum:

Our Audio-Visual Program continues to expand and improve. Mr. Joseph Burleigh is handling this program for all schools. The new 16 mm projector, purchased this year, is in constant use. The machine is taken to the grade schools for one day per week and special programs are obtained for use in these schools. The corps of operators, both boys and girls, go with the equipment wherever it is used. These pupils all operate all equipment, and some are trained to do repair work.

The amount of participation in the course in "Safe Driving" is greater this year. We are now accommodating over one hundred boys and girls in this work. Each learns to drive a car, studies the law and mechanism of the car, and takes the written and road tests required by the State Motor Vehicle Department. A pupil who successfully completes this course may get his license as soon as he is of age without further tests. This approach to the problem of improving highway safety holds great promise of success.

The amount of interest and participation in the Manual Arts

Headmaster's Report (Continued)

Department is increasing each year. The hiring of assistants in the areas of Wood Shop and Machine Shop has made it possible to accommodate more boys in this work. We now have more than seventy-five boys taking each subject. We now strongly recommend that each boy, including those in the college program, take one year of Machine Shop. This encourages all to determine what they can do with their hands.

A complete survey of the English program from grades nine through twelve was made by a committee of the teachers of English. As a result of this work a continuing program was established. The units covered in each year are well organized and emphasis is being placed on those considered weak. This curriculum study and revision has been summarized, and each teacher of English is basing the year's work accordingly. We have had several requests from other schools, interested in curriculum revision, for these summaries.

There has been a change in the order in which the work is presented in the Domestic Arts Department. Grade IX spends one half year in cooking and one half year in sewing. The next year, these girls spend one half year at more advanced cooking and one half year at more advanced sewing. This appears to be a more successful way of presenting these units. The girls progress faster and accomplish more under this plan. We are also offering the regular Red Cross "Home Nursing" course to all girls in the grade XII Domestic Arts Class. This is taught by Mrs. Mathilda O'Brien, R. N., who has had years of experience in this work.

The School Lunch Program under the able direction of Mrs. Ruth Gilman, continues to be a very important part of our daily program. Nearly thirty-four percent of the pupils make use of this service every day. In addition, about one third of the pupils purchase milk to go with the lunch they bring from home. When there is a surplus of some item, such as apples, it is distributed to all pupils.

School Plant:

Your attention is called again this year to the building conditions that need correction. The floor in the main corridor has broken through in several places. These spots have been temporarily repaired by being covered with plywood. The parapet on the roof is ready to fall apart in several places. These conditions should not be allowed to continue. The building is now ten years

old. At the close of this year the number of boys and girls who have graduated will be close to nine hundred. During this period the building has received adequate care and has not been abused to any great extent. However, the time has come for giving careful consideration to a plan for refinishing part of the building each and every year. Many rooms and the corridors need to be repainted. The exterior window frames need paint. They have never had more than a priming coat and are beginning to crack. These illustrations are cited to indicate the need for a continuing plan for upkeep year to year.

Through the cooperation of the City Manager and the Highway Department, our parking areas have been extended. The driveway was widened for head in parking out to Central Street. A large parking area was formed in the rear of the building next to the boiler room. This area will accommodate forty or more cars. The upkeep of our athletic fields is a problem we are not able to handle under the present set up. They require constant attention from the time the snow goes until it returns. Because we are not able to provide this attention, the playing areas have deteriorated to the condition they are now in. These fields require complete resurfacing and provision must be made to provide water during dry spells. I hope that this situation can be corrected this year.

College Records:

The following is a summary of facts discovered by a survey of the graduates of Franklin High School now in their first three years of college. The records of thirty-one graduates were sent to us by different colleges. Of this group, twenty-one graduated in 1947, 1948 and 1949.

Results—All subjects.

1. At the end of their first semester, two were in scholastic difficulty.

2. At the present time, 23.8% are doing honor grade work and 66 2/3% are doing average or better work.

Results—English.

1. During their Freshman year, 90% passed English, 36.3% receiving honor grades.

2. For all English courses, 90.6% received passing grades and 38% of the grades received were honor grades.

Results—Mathematics.

1. During their Freshman year, 82% passed their Mathematics and 18% of the grades received were honor grades.

2. For all Mathematics courses taken, 85.3% received passing grades and 14.6% of the grades were honor grades.

Headmaster's Report (Continued)

These facts indicate:

1. That in the area of English, our graduates are meeting with better than average success.
2. That in the area of Mathematics our graduates are meeting with average success.
3. That the graduates from Franklin High School are successfully competing at the College level.

Immediate Needs:

Again this year, I want to call your attention to the need for a Physical Education Program. All available evidence points up the need for considering the physical as well as the mental development of the school child. We find, for example, in the physical examinations given to athletes each year, cases of heart conditions and other physical defects that have not been discovered previously. Because the examinations are limited to athletes, only a small percentage of the pupils are contacted. Our splendid facilities for physical training stand unused during the regular school day. True, we do have an intramural athletic program that runs between the 2:15 P. M. dismissal time and the 3:15 bus departures. However, during this time only those interested in basketball take part. Physical training should cover all phases of muscular coordination and health, and not be limited to a training ground for athletic teams. Mr. Hoban, Director of Athletics, has a College Degree in Physical Education. He is interested in working in this field and has the ability to do a good job. He would have to be released from his duties as a Biology teacher in order to have the time to run such a program. I hope this will be possible next year.

For the last two or three years attempts have been made to inaugurate a program of Art Instruction. For various reasons, this instruction is not available. In a survey made this year, forty pupils indicated that they were interested in Art as a career. Many of these boys and girls appear to have talent. A planned program of Art Instruction could be of real service to these pupils and to many others who would be interested.

Mention has already been made of the faculty interest in Guidance work. This is a natural outgrowth of the educational thinking of the past several years.

Schools are no longer institutions in which a child is exposed to a limited rigid set of subjects on the assumption that the mind can be trained like a muscle of the body. We now know that each child must be treated according to his individual ability and needs. We also know that all children cannot be successful in a

purely academic program. Our goal is, as it should be, to train each child to make full use of the abilities with which he was born. The real problem then, is to determine the individual child's ability and to follow his development carefully throughout his school career. This is what a real Guidance Program attempts to do. In High School, each pupil spends forty minutes per day with each of six or more teachers. At these times, twenty or more others are also present. Most of the teachers get to pupils individually after the regular school hours. As you might expect, most of these contacts are concerning subject matter, and they are made by pupils seeking this help. The Guidance work then, is therefore limited to the time the administrator spends with pupils helping them with individual problems. A member of the faculty should be designated as Guidance Coordinator, and given time each day to devote to this work. This person could supervise the testing, set up the necessary record files, plan and conduct individual and group work, coordinate faculty effort, and carry out the follow-up and placement work with graduates. Our service to the individual pupil would be greatly improved by such a Guidance Program.

The Future:

..

I am pleased to find that many people in the city are seriously concerned regarding the future educational needs of Franklin's children. It will not be too many years before the increased pupil population reaches the High School level. We are now operating at close to 100% capacity in our building. Careful planning now will help to solve many problems before they become serious. Much consideration needs to be given to the nature and extent of our educational development. The entire faculty is interested in working on this problem. Community interest and cooperative effort will insure success.

In closing, I wish to express to the Superintendent, to the School Board, and to the people of Franklin, the appreciation of the faculty, and pupils of Franklin High School. Your cooperation and active interest have made possible the continued development of this school, as a modern efficient educational institution.

Respectfully submitted,

JOSEPH J. CASHMAN

REPORT OF SCHOOL NURSE

The year 1949 marks the close of what has proven to be a remarkable decade in the history and development of health services in the nation's schools. We have witnessed great improvements in our methods of diagnosis and treatment of physical illness. The detection of early symptoms has been greatly facilitated by the development of more precise diagnostic instruments. In this connection one has only to consider the refinements in our modern Audio-visual tests and the improvement in our tuberculin tests. School clinics with their modern diagnostic and therapeutic procedures have become an accepted part of school health programs.

Together with this improvement in both services and techniques there has been a similar and probably greater advance in the area of public attitudes towards health. This has manifested itself throughout the nation in a keener awareness of the importance of good health, of the need of early detection of incipient disease and the institution of adequate preventive measures. This attitude has been particularly marked in the area of the schools and has been fostered by realization that good health has a definite relationship to the academic success and personality growth of the child.

This relation of good health to success or failure in the school has particular application in vision and hearing. These constitute the two most important avenues of information, and when they are impaired, school success is likely to be impaired unless remedial measures are taken. Fortunately two instruments for the diagnosis of impairments in these areas have been developed and are in use in the Franklin schools. The first, the Massachusetts Vision Testing Instrument, has received deserved acclaim during the past few years. This test, a gift from the Franklin Visiting Nurses' Association has been used in the schools since 1948. This year eight hundred children took the test. The second test used in the Franklin schools is known as the Puretone Audiometer and is a hearing test. Deafness or impaired hearing is revealed by this test so that an investigation of the cause may be made and remedial measures taken. The cause or causes of impaired

hearing may be many. While heredity may be a factor, more frequently such things as diseased adenoids, or tonsils, residuals from other diseases such as scarlet fever, or even foreign bodies lodged in the ear may be the real causes. Earache and discharging ears indicate serious trouble and should receive the attention of a physician.

Tuberculosis, while much more under control than it was ten years ago, is still a threat to the school child unless adequate precaution is taken. In children, this disease rarely manifests itself in such physical signs as lowered vitality, loss of weight, coughing, or general weakness. More commonly the progress of the disease is slow and may not cause trouble until adolescence or early adulthood. It is possible, however, to detect the presence of tuberculosis infection by using what is known as the Tuberculin Skin Test. On February 11, 1949, this test was given to six hundred and twenty-nine children. Twenty children were not required to take this test, because, they had been previously examined at the chest clinic held in January, 1949. Thirty-four children who took the Tuberculin Skin Test showed a positive reaction and were X-rayed on March 24, 1949. As a further precautionary measure two chest clinics were held in January and June with fifty-six children in attendance. Dr. Robert Kerr, of the New Hampshire Tuberculosis Association, was in charge of both clinics.

What has been said of the control of Tuberculosis applies equally as well in many respects to other communicable diseases. Techniques for the detection and prevention of these have reached a relatively high degree of accuracy. It is important, therefore, that every child be given the protection of these techniques.

A toxoid clinic was held on April 29, 1949, with sixty school children and twenty-four pre-school children in attendance. A second toxoid clinic was held on May 24, with forty-one school children and twenty-four pre-school children attending. A third clinic was held on June 22 at which thirty-one children were tested.

Parents are today realizing more the importance of dental care. This applies particularly to the care of baby teeth, since if these

Report of School Nurse (Continued)

are neglected, the permanent teeth suffer also. The first eight years of a child's life are the most crucial in the safeguarding of the dental structure. Prevention is the watchword in dentistry today. During the past year approximately five hundred school children visited their local dentists. As a result, there has been a marked improvement in the dental corrections, particularly of the pupils of the Senior High School.

Every health program recognizes the importance of good nutrition in safeguarding health and preventing disease. Milk constitutes an essential part of every nutritive program. From December, 1948, to June 17, 1949, twenty children received one-half pint of milk daily. Forty children received one-half pint of milk daily from November 7, 1949, to December 22, 1949. Nine children received hot lunches daily from November 15, 1948 to June 10, 1949, while five children received hot lunches from November 7 to December 22, 1949.

The advance in the field of physiotherapy has verified the importance that it plays in the treatment of many physical defects which if left untreated may lead to serious handicaps. Good posture is one of the aims of physiotherapy. Poor posture, on the other hand, is a sign that the child needs a careful and complete medical examination to discover the underlying cause. Twenty-two children attended orthopedic clinics held in Laconia and Concord at frequent intervals during the year. The New Hampshire State Board of Health continues to offer its services to children with postural, orthopedic, and foot defects through Miss Mary Bullock, of Concord, a trained and competent physiotherapist. Since September, Miss Bullock has been coming to the nurse's room at the Daniell Junior High School, on the first Friday of each month to supervise the exercises recommended by the attending physician at the clinic.

Mention has already been made of the importance of detecting

physical illness in its early stages. This has always been an important part of the health program of the Franklin Schools. A pre-school clinic was held at the Hancock School on May 25 and May 26. At this clinic thirty-two children were examined by Dr. Robert Morin. On May 27 a pre-school clinic was held at the Nesmith School where twenty-four children were examined by Dr. Robert Morin. Physical examinations were also given by Dr. Robert Morin to one hundred and twenty-eight students who were participating in the athletic program of the Franklin schools.

The annual tonsil clinics, which are sponsored by the Franklin Rotary Club were held in June, July and October. Fifteen operative cases were cared for by Dr. Frank Kropp and Dr. Robert Morin.

It has been indeed encouraging to find throughout the school year the same keen appreciation and earnest cooperation that are so characteristic of the interest of the citizens of Franklin in the health program of their schools.

I wish to take this occasion to thank the physicians and dentists, the directors of the Melianda Tobie Trust Fund, the Franklin Parent and Teachers Association, the American Legion of Franklin, the Franklin Community Chest, the parents, the administration and faculty of the Franklin schools.

Respectfully submitted,

MARION MOYNIHAN, R. N.

Resolutions

No. 1

In the year of our Lord one thousand nine hundred and forty-nine.

A resolution relating to borrowing money in anticipation of taxes.

Resolved by the City Council of the City of Franklin as follows:

That for the purpose of paying such claims against the City of Franklin as may fall due before the 15th day of December 1949, the City Treasurer of the City of Franklin, with the approval of at least a majority of the standing committee on finance, be and hereby is authorized and empowered to make such temporary loans from time to time for the use of said city, of sums not exceeding the aggregate amount of two hundred seventy-five thousand dollars (\$275,000.00); said loans being in anticipation of the taxes of the present year and hereby made expressly payable therefrom; said Treasurer giving for the said loans the notes of the said City bearing the authenticating certificate of the First National Bank of Boston, in Boston, Massachusetts; said notes to be signed by the City Treasurer and countersigned by the Mayor and to be payable within one year from their respective dates.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 3, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 2

In the year of our Lord one thousand nine hundred and forty-nine.

A Resolution relating to taxes and poll taxes.

Resolved by the City Council of the City of Franklin as follows:

That, the Tax Collector shall not allow any discounts on taxes but that twenty cents shall be added to all poll taxes not paid on or before September 15th, 1949.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: January 3, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 3

In the year of our Lord one thousand nine hundred and forty-nine.

A resolution relating to the weekly payrolls.

Resolved by the City Council of the City of Franklin as follows:

That the Treasurer be and hereby is authorized to draw her draft each week for the payment of the weekly payrolls of the Highways, sewer and other departments where weekly payment is required.

Approved: EUGENE S. DANIELL, JR., Mayor

Passed: January 3, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 4

In the year of our Lord one thousand nine hundred and forty-nine.

A resolution relating to raising money by taxation.

Resolved by the City Council of the City of Franklin as follows:

That the sum of \$405,973.52 be raised by taxation the present year and that the assessors be instructed to assess for the amount as follows:

County Tax	\$41,079.41
Library	9,000.00
Schools	164,000.00
Poll taxes	5,904.00
National Bank stock taxes	1,139.00
	\$221,122.41

and the sum of \$184,851.11 to meet the current expenses provided for by the appropriations made and same be appropriated with other revenues of the City to meet the same.

Tax Rate for 1949: \$45.50 per thousand.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: Sept. 7, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 5

In the year of our Lord one thousand nine hundred and forty-nine.

A resolution relating to appropriations for the year 1949.

\$452,029.55

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: Sept. 7, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

RESOLUTION

No. 6

In the year of our Lord one thousand nine hundred and forty-nine.

A Resolution relating to the Honorable Dennis E. Sullivan.

Whereas on November 2, 1949 a Testimonial dinner is to be given to the Honorable Dennis E. Sullivan, recently appointed a Justice of the Superior Court for the State of New Hampshire.

Whereas the Honorable Dennis E. Sullivan has served the City honestly and well for many years and in many ways, among them as Mayor for the years 1929, 1930 and 1931.

Therefore, be it resolved that we, the Mayor and Council of the City of Franklin, both for the City we represent and for ourselves, do offer our congratulations and best wishes to the said Dennis E. Sullivan on this most important and memorable occasion.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: October 20, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

Ordinances

ORDINANCE

An Ordinance relating to licensing of bicycles.

In the year of our Lord one thousand nine hundred and forty-nine.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. From and after April 1, 1950, it shall be unlawful for any person to operate or use a bicycle propelled by muscular power upon any street, alley, or public highways of the City of Franklin without first obtaining from the Chief of Police, or someone he shall appoint, a license for his or her bicycle. This license will run from March 1 to March 1 of the following year, but can be obtained any time after January 1.

Section 2. The Chief of Police is hereby authorized and directed to issue licenses which will expire on March 1 of the year next after issuance, through the Police Department, or some organization which he feels justified in appointing.

Section 3. The Chief of Police shall designate and provide tags for the use of the licensee and direct the manner of placing such tags on the bicycle by the licensee, and the said Chief of Police shall keep a record of the names of the licensees and the number of the tag and description of the bicycle so registered.

Section 4. The license fee for said bicycle shall be the sum of 25 cents, and shall be paid in advance and a license may be transferred, but a fee of 10 cents shall be charged for each transfer. All license fees under the Ordinance shall be paid to the Treasurer of the city of Franklin.

Section 5. No person shall propel any bicycle on any sidewalk in the city of Franklin.

Section 6. No person shall ride or propel a bicycle upon any public street, highway, in the said city unless said bicycle is

equipped with a bell, horn or other warning device, and if the said bicycle is to be used after dark, it must be equipped with a light that is attached to the front of said bicycle, visible from the front thereof not less than 200 feet, and a light or reflector attached to the rear that can be seen for a distance of 200 feet.

Section 7. Persons riding bicycles shall observe all traffic signs, stop signs, and shall further observe all traffic rules and regulations applicable thereof, and shall turn only at intersections at all turns, ride on the right side of the street or highway, passing overtaken vehicles that are slower moving to the left, and shall pass to the right when meeting another vehicle.

Section 8. No person shall operate or propel a bicycle without having his hands upon the handle bars so called, and a bicycle with one seat shall not carry another person on said bicycle thereof.

Section 9. No person riding a bicycle shall hold onto a bus, truck or any other moving vehicle.

Section 10. Any bicycle, operated by the owner or any other person lawfully in the custody thereof, in violation of any of the provisions of the ordinance may be taken into custody and be impounded for a period of not more than 30 days. This shall be determined by the police officer.

Section 11. This ordinance shall take effect on its passage.

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: Sept. 7, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

ORDINANCE

An Ordinance relating to building permits.

In the year of our Lord, one thousand nine hundred and forty-nine.

Be it ordained by the City Council of the City of Franklin, as follows:

I. No person, or persons, shall construct or alter, or cause to be constructed or altered, any building without first obtaining a permit from the City Manager or the City Council. Said City Manager or City Council, in granting or refusing a permit, shall consider the health and safety of the community and the suitability of the proposed construction for the area within which it is to be constructed.

II. Alterations or repairs to any building for any single year

ORDINANCES (Continued)

not exceeding a fair valuation or cost of \$200.00 shall be exempt from the provisions of this Ordinance.

III. a. Any person or persons refused a permit under this Ordinance shall on request in writing to the Mayor or City Manager be entitled to a full public hearing before the City Council within fifteen days of receipt of said request.

b. If a request is refused after a full public hearing before the City Council, the person or persons so refused may appeal said refusal by request for a hearing before a Justice of the Superior Court for the County of Merrimack.

IIV. Violation of this Ordinance shall be punishable by a fine of not more than twenty dollars (\$20.00).

Approved: EUGENE S. DANIELL, JR., Mayor.

Passed: March 7, 1949.

A true copy attest: Mildred S. Gilman, City Clerk.

** Died, Dec. 21, 1944

City of Franklin,

N. H.

Inventory of

Assessed Valuations

for the year

1949

Basis of Assessment

The Revised Laws of New Hampshire, 1942, provide that the assessors:

"Shall appraise all taxable property at its full and true value in money as they would appraise the same in payment of a just debt due from a solvent debtor"

As to stock in trade:

Chapter 73, Section 16, Revised laws provides that declarations must cover:

". . . the average value of your stock in trade employed in this town for the year basing the value on the worth to you to use or to sell in the ordinary course of business."

Ward 1 RESIDENTS

Adams, Alice, block and barn, No. Main St.	\$3,400.00
